

Creating Brains in Software Video Series on YouTube

New Video Series, Introducing Brain Simulator II

3/14/2019 Annapolis, MD—The "Brain Simulator II" and "How Your Brain Works" video series on YouTube were announced today by FutureAI. Introducing the project of creating end-to-end Artificial General Intelligence (AGI). Both series marry the fields of AI and neuroscience to intrigue the layman and advance the field. Videos at: <http://futureai.guru/Videos.aspx>.

"Most people don't understand just how quickly machine intelligence is advancing, it's much faster than almost anyone realized, even within Silicon Valley."

—Elon Musk

Also, Will Computers Revolt? **the new** companion book, details the future of artificial intelligence (AI) in an easy-to-read format of what and how humanity should prepare. *FOREWORD* reviews says, "*Will Computers Revolt? is a fascinating and informed look at the conjoined futures of humanity and artificial intelligence.*"
